

## MEXICAN REBELS IN FULL RETREAT ARE NEAR JUAREZ

General Orozco Now Planning Guerrilla Warfare Against Government.

EL PASO, Tex., July 6.—Gen. Pascual Orozco, commanding the Mexican rebel army, which is in full retreat before the victorious federal forces under General Victoriano Huerta, is expected in Juarez from the south some time today. With him is expected all of the remainder of his army—two troop trains carrying about 1,800 soldiers.

It is Orozco's plan to stop here only temporarily, and then send his troops on to Casas Grandes, and thence west to the state of Sonora.

Utterly defeated in his efforts to overthrow the Madero government, the rebel chieftain expects to concentrate all his efforts on that state, and conduct an organized guerrilla warfare. If he succeeds in doing this, it is believed that he will be able to harass the government forces for years.

Accompanying Orozco's troops were members of the rebel legislature, and also many men and women refugees from Chihuahua.

## Indiana Society Holds Annual Picnic at Falls

The annual picnic of the Indiana Society is being held at Great Falls, Va., today. Between 100 and 200 members and friends are enjoying the outing. Some of the most prominent members in attendance are Chief Justice Stanton J. Peelle of the Court of Claims, and Mrs. Peelle; Col. Henry Mount, Willis J. Fowler, W. W. Curry, and J. O. Lambert.

A special car at 11 o'clock carried about 150 persons. About 200 more, mostly Government clerks, who are members of the society, and friends, went on the cars at 1:30, 2, and 2:30 o'clock.

There were a few impromptu speeches. Many members spent part of their time fishing at the falls.

## HYDROPHOBIA FEAR NOT WELL FOUNDED, DECLARES DOCTOR

Hyattsville People Think They Contracted Disease From Cow.

"I do not think the Hyattsville residents who are being treated here for hydrophobia are in the slightest danger," said Dr. Edward Francis, assistant director of the hygienic laboratory of the Public Health and Marine Hospital Service today.

Fifteen residents of the village of Hyattsville are under treatment at the Public Health and Marine Hospital for rabies as a result of a panic that struck them when it was discovered that they had been drinking milk from a cow owned by P. M. Radcliffe, which died last Saturday. Dr. Fred E. Davis, a veterinarian, and other experts were of the opinion that the cow died of rabies.

"If I had been drinking the milk of a mad cow I see no reason why I should not keep on drinking it," said Dr. Francis.

"The persons who have been drinking the milk are not being treated for rabies," he continued; "they are being given the regular Pasteur treatment in order to immunize them. When the germ of rabies, which has not been isolated, is present in an organism it requires some time for it to develop. By the time it has become active the immunizing treatment, if begun early, will enable the affected person to combat the disease and to avoid its effects."

There were fifteen Hyattsville citizens enjoying the breezes at the hospital today preparatory to being treated. Twenty-one treatments, one each day, are required. The patients are free to go about as they wish between treatments, not being confined to a hospital or requiring the care of a nurse.

The cow belonging to Radcliffe is supposed to have contracted the disease from a bull dog belonging to Charles R. Lubner. The strange death of the cow attracted curiosity, and when a woman said that she had seen the dog bite the cow this curiosity became panic.

The dog died, apparently from hydro-

phobia, and was buried. No examination was made of it to determine definitely the cause of its death, but the observations of neighbors are supposed to present conclusive evidence that it died of rabies.

## MINISTERS OPPOSE SUNDAY BASEBALL

Police Report There Is No Law To Prevent Games Any Day.

Protest against Sunday baseball in the District is made to the Commissioners by the Lutheran Ministerial Association. Although major league games are not played in this city on the Sabbath, the law does not prohibit Sunday baseball, according to a report submitted to the Commissioners by Capt. John C. Daley, of the Ninth precinct, through Major Sylvester, Superintendent of Police. Captain Daley says that there is no law on the subject, provided a license is granted by the Assessor of the District.

A year ago several cases were filed in the Police Court and withdrawn on the advice of the Corporation Counsel. Since that decision, according to Captain Daley, a number of games have been played at the Union League Park, Fifteenth and H streets northeast, for which there was a charge of admission. The Commissioners are asked by the association to use their influence in preventing Sunday baseball "in the interests of all good citizens and Christian people." The letter is signed by the Rev. C. H. Butler, secretary, 228 Second street southeast.

## Troopers in Camp.

A summer camp has been established at Camp Edsall, near Alexandria, by Troop B, of the Fifteenth Cavalry, which is regularly at Fort Myer. The hours of practice and drill work will be spent entirely on the target range at the camp, this being the primary object in making the trip. Troop B will spend five weeks in camp before returning to Fort Myer.

## RATE BODY STRIKES AT VIOLATIONS OF TRANSIT PRIVILEGE

Rules Laid Down to Cover Transfer of Grain in Shipment.

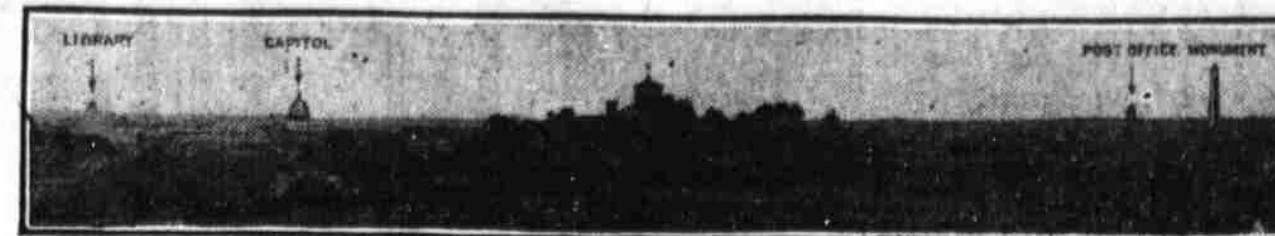

Finding that there are gross violations of the law in the operation of railroad transit privileges, particularly in the substitution of one kind of grain in transit for another, the Interstate Commerce Commission today laid down a series of rules to correct the evil. It requires that the railroads shall establish exact rules governing granting of these privileges on grain and grain products, which shall include certificates as to the transportation character of grain in transit houses, daily reports on the contents of these houses, filing of all paid expense bills, cancellation of all surplus billing at the close of each business day, and an accurate description in the billing of the commodities which are favored with the transit privilege.

## Author's Aunt Sees "Fourth Estate" Played

One of the interested members of last night's audience at Poli's Theater was Mrs. Raymond Patterson, widow of the former correspondent of the Chicago Tribune, who is the aunt of Joseph Medill Patterson, author of "The Fourth Estate," which is this week's bill at Poli's.

Mr. Patterson is also a cousin of Joseph Medill McCormick, publisher of the Chicago Tribune, and the young man gained much of his information regarding the newspaper business when he was acting as "cub" reporter on his grandfather's newspaper.

During the run of "The Fourth Estate" in New York and Chicago, Mrs. Patterson was abroad, so last night was the first time she had seen the play.

## Turn Your Rent Expense Into a Home Investment AT "HIGH VIEW"

On Rhode Island Ave., One Square East of N. Capitol St.

You will find many other wise citizens doing the same thing. Many people are still paying rent, but they represent that class that would not give up the old kerosene light until actually forced to see the superiority of gas and the electric light.

There's no more prosperous section in the entire city than "High View." That's because every family here owns their own home.

And such fine homes, too. They have the appearance and quality of houses selling all the way up to \$5,000—yet are only—

**Price, \$3,300**

**Cash: \$200**

**Monthly: \$26.92** (Including all interest)

The demand for these homes has been greater than the builders could supply it. Already many homes but part way under construction have found eager purchasers so great is the value and so apparent.

There are a few more "High View" homes about completed. If you want to move into one right away you had better see them at once.

TO INSPECT—Take any G street car marked "Brookland" or "North Capitol and W Streets," get off at Rhode Island avenue and walk one square east.

The owners have under course of construction more of these homes. It will be several months before they are completed. If you haven't the necessary \$200 first payment to put into one of the homes now ready for immediate occupancy, you can have us reserve one of the next lot for you by arranging to make us small monthly payments. In this way, by the time the homes are ready for occupancy, you will have saved enough to make the first payment. After that all you need pay is \$26.92 per month, which applies directly on the home, including all interest.
